

De Montfort Stamp Co

Northcott Leeward Islands Postal Auction

Closing 5pm – 7 June 2019

This postal auction is a departure from my usual all world postal auctions and consists of a single vendor's collection of the stamps of Leeward Islands. The auction contains a tremendous amount of material including most of the Stanley Gibbons listed flaws (with the exception of watermark varieties) plus many listed flaws identified by Fernbank, Halward and Oliver (second edition). The collection is especially strong in King George V plus the lower values of King George VI with many full sheets, plate blocks and positional pieces. There are believed to be some unique items such as lot 356 1921-32 KGV 6d dull and bright purple plate number 16 single SG72 and lot 363 1921-32 KGV 1/- black/*emerald* with the "DI" flaw SG73a. There are also two mint examples (Lots 670 & 671) of KGV 10/- pale green and dull red/*green* Williams Lea printing SG113a both showing as yet unplated "Break in top frame" flaw unknown and thus unlisted by Yendall.

Scans or colour photocopies of lots are available on request. Illustrations of many lots are available on my secure website www.demontfortstamps.co.uk where the catalogue can also be downloaded or viewed and bids placed.

Condition

Lots are described with as much detail as is possible giving due deference to gum, perforations, postmark etc and the condition of same is relative to that particular issue and age. All lots are sold without defects and as genuine unless noted in lot description. Collections and accumulations may contain items with faults, which may not be mentioned in lot description. The majority of covers are commercial use and as such may have minor tears or creases etc, which are only mentioned if they considerably reduce the value of the item.
